By State Law, Fair Oaks Water District looks to the land that receives the service for payment. Unpaid balances on water accounts are applied to the land and not the person incurring the obligation. The amount due, if unpaid by the due date, could potentially become a lien on the property and may result in termination of service and additional service charges.

For this reason, the District requires owners to keep the account in their own name so that owners are aware if a tenant creates an obligation on the property. Owners are welcome to call (916)967-5723 to check the status of their account(s).

I have read and consent to the terms of this agreement.
